“Never Forget. Never Again!”

We shall always remember the horrible reality of the Holocaust!

We all must know that *not* just on the International Holocaust Remembrance Day, but rather always remember and know that the Holocaust was a production of a Nazis and racist ideology that could have destroyed the whole of mankind if it had the power to do it.

Thanks to the struggle of millions of people around the world, i.e. e the brave fight and the historical resistance of Jewish people, we managed to topple a fascist thinking. Our fight against any kind of anti-Semitism must go beyond different ideologies and religious believes. The fascist mentality never stops at the end of “anti-Semitism”, but will continue its deadly machine to exterminate all the “others” and is in nature an “anti-All” movement.

In the light of this very great day of remembrance the Holocaust we are sending our deep condolences to the Jews wherever they might be now and show them our solidarity and our political will that we are standing by them and we will stand by people in need.

The horrible Turkish massacres against the Armenians and the Kurds, the Saddam Hussein’s war of genocide against the Kurdish people, and the many other atrocities against humanity are similar attempt in a political framework. We must see the Mahmoud Ahmadinejad’s hate against Jewish people in a right dimension of history and be aware of it’s consequences.

Therefore we must learn from history and remind ourselves that we never forget and ever let Holocaust happens again!

Rebwar Rashed

Member of the Executive Committee of the Social Democratic Party of Kurdistan
